

Cambridge Nationals – Reproductive Systems

OCR Child Development

FOLD OVER TO TEST YOURSELF →→→→

Key Vocabulary	Definition
Ovulation	An important part of the menstrual cycle where the female egg cells are released from the ovaries as part of the ovarian cycle.
Urethra	The duct by which urine is conveyed out of the body from the bladder. For males this also conveys semen.
Uterus	The organ in the lower body of a woman or where babies are conceived and in which they gestate before birth; the womb.
Gestate	To have a baby developing inside the mothers body.

Correctly label the Male and Female Reproductive System.
